

2009 Programming Review – Success System

(10 reviews received)

➤ **Strengths**

- Helps us to keep record and encourages us to do a variety of different things (on 3 reviews)
- Form is great
- We discuss it at board meetings to find out what projects/events/certifications we could do

➤ **Weakness or things that could be improved**

- Some of the guideline explanations are hard to understand, but I don't see how to re-word them.
- % of May base to figure new member adds – if we get credit for each new member forget the rest
- Growth for year – if getting each trimester when why again at year end?
- Active members at state committee – most chapters wouldn't have one so why give credit? Only state staff seems to be at study committees
- Eliminate membership B & H. Questionable on H
- Is it really necessary to prove we did everything by having copies of the newspaper, visitation agenda signed, newsletter cover every single trimester?

➤ **Success March (#4)**

- I like to recognition for hard work. I also like the banners.
- Like it but think pop div should be better explained to the general members.
- Love seeing where my chapter is with other chapters. No changes
- Like that the Presidents don't know where they rank until called but sometimes the names are called too fast
- I think they should take a picture of all 25 chapters as well as top 10
- I liked when everyone had a number and you knew where you stood

➤ **Recommendations**

- Keep the points for each new member add but remove the monthly new member add points?
- A forum on the reporting and substantiating of things. Maybe a round table at district meetings.
- NEWSLET submission should be allowed each trimester (on 2 reviews)
- Exec Council should be able to claim meeting attendance. May help in looking for state/district officers. (on 2 reviews)
- Keep it the way it is
- Get rid of the plaques
- Some explanation of what areas are considered USWT External areas
- Should chapters that rebuild be given any special points?
