2009 Programming Review – Records & Recognition
(7 entries received)

> ## Strengths
> * Helps to keep great record for future projects and important papers
> * Success system
> * Information on how to keep records for chapters
> * Success
> * Chapter scrapbook
> * Recognition
> * Record keeping

> ## Weakness or things that could be improved
> * Often overlooked and then the next year we are trying to remember what we did last year
> * Success-it is underutilized as a chapter management tool.
> * More communication to chapter on how we can get success points and for what types of activities
> * It is at times difficult to try and submit a LPM for this area; difficult to determine hours for this area
> * People don't like paperwork – emphasis on how quick it is an how important it is

> ## Evaluations (#7-9)
> * Explanation and reason for year-end evaluation
> * Better explanation and prep for the entry; clearer instructions and guidelines
> * Offer a training on this; it is overwhelming to new leaders
> * More communication from state organization, through the districts
> * Have not done because of the time consuming process to complete
> * Make it an online format for submission – where it takes less time
> * It's daunting to those who don't like writing
> * Better feedback – require comments

> ## Recommendations
> * Perhaps a "cookie cutter" method of record keeping/filing
> * An electronic version
> * Good idea to have a display of the chapter scrapbooks at conventions-can see what other chapters are doing
